

PROMOTE YOUR BRAND AND GENERATE MORE BUSINESS

Pages from 2015 Exhibition Catalogue

The Offshore Wind Energy 2017 Official Exhibition Catalogue is the only publication at the exhibition that includes:

- Programme overview
- Full details about what's on each day
- Information about side events and workshops
- Exhibition floor plan
- Lists of exhibitors by category and stand number
- Venue plan
- Individual exhibitor profiles
- A-Z information of essential information for visitors

In 2017 WindEurope and RenewableUK will join forces to host the world's largest offshore wind conference and exhibition.

This event unites the wind energy supply chain and attracts thousands of offshore wind energy professionals such as manufacturers, developers, operations and maintenance, logistics and installation key industry contacts.

The Offshore Wind Energy Exhibition Catalogue is distributed free of charge to every visitor. Informative and educational, it contains all the essential details about the conferences, the show and exhibitors. Serving as a vital reference tool and sourcing guide for months and years after the show, it is also used by attendees on site to help them find their way around the venue.

Maximise your presence at the exhibition and increase your business with one of our promotional packages, exclusively available to companies taking part at the Offshore Wind Energy event in London.
